

## *Invitation to participate at the FEBS3+: Molecules of Life Congress*

The Slovenian Biochemical Society (SBS) together with the Croatian Society of Biochemistry and Molecular Biology (CSBMB), the Hungarian Biochemical Society (HBS) and the Serbian Biochemical Society (SBS) organizes an international congress FEBS3+: Molecules of Life under the auspices of the Federation of European Biochemical Societies (FEBS), which will be held on September 16-19, 2015 in Portorož, Slovenia (<http://febs3.sbd.si/en/invitation.html>).

Like at previous regional congress FEBS3+ (<http://febs3plus.imi.hr/index.html>) that took place in Opatija, Croatia in 2012, also in Portorož we expect over 350 participants. We invited world-renowned lecturers from Slovenia and abroad to present their recent scientific findings within the following research thematics:

- Genomics and genome maintenance
- Regulation of gene expression
- Structure and function of proteins
- Membrane structure and function
- Molecular signaling
- Systems biology and bioinformatics
- Immunity and inflammation
- Molecular basis of disease
- Cell death and differentiation
- Developmental biology and neuroscience
- Biotechnology

We are addressing you with an invitation to participate at the international congress FEBS3+: Molecules of Life in Portorož, September 2015 and contribute in any financial or material aid. Your participation and your contribution to the success of the congress will be much appreciated. The sponsorship options are attached.

We bid you a warm welcome to the congress and look forward to your cooperation.

Prof. Nataša Poklar Ulrih  
President of Organising Committee  
FEBS3+: Molecules of Life

Prof. Janko Kos  
President of Slovenian Biochemical Society
